

Vialit Cohesion Apparatus EN 13588 (laboratory apparatus designed for measuring adhesion of asphalt binders)

Basic technical specifications:

Operation weight	28,9 kg
Pendulum mass	2000 ± 20 g
Turning radius in dash point	500 ± 1 mm
Centroid distance from axis of rotation	295 ± 2 mm
Distance from the pendulum edge to knurled apex of support	2 ± 0,1 mm
Testing cube weight	9,0 ± 0,5 g
Scale diving	0,5°
